

# Seacliff Green

## ORGANIC LIQUID FERTILIZER

- 💧 Bulk application on/into agricultural soils as needed by crops
- 💧 Well suited for crops and soils with high nitrogen requirements (e.g. corn, wheat)
- 💧 Increase organic matter and micronutrients
- 💧 Storage facilities and application equipment available
- 💧 Improve conventional crop production by adding organic matter and micronutrients
- 💧 Facilitates transition to organic production while maintaining traditional yields
